No, is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          Score

-1- FUNCTION: THE ABC EXCISION NUCLEASE IS A DNA REPAIR ENZYME THAT CATALYZES THE EXCISION REACTION OF UV-DAMAGED NUCLEOTIDE SEGMENTS PRODUCING OLIGOMERS HAVING THE MODIFIED BASE(S). UVRA IS AN ATPASE AND A DNA-BINDING PROTEIN THAT PREFERENTIALLY BINDS SINGLE-STRANDED OR UV-IRRADIATED DOUBLE-STRANDED DNA (BY SIMILARITY).
-1- SUBGELLULAR LOCATION: Cytoplasmic (By Similarity).
-1- SUBGELLULAR LOCATION: Cytoplasmic (By Similarity).

Limulus polyphemus.";
Proc. Natl. Acad. Scl. U.S.A. 90:6150-6154(1993).
-I- FUNCTION: VISUAL PIGHENTS ARE THE LIGHT-ABSORBING N
MEDIATE VISION. THEY CONSIST OF AN APOPROTEIN, OPSI
LINKED TO CIS-RETINAL.
-I- SUBCELLULAR LOCATION: Integral membrane protein.
-I- TISSUE SPECIFICITY: LATERAL EYE.
-I- FISSUE SPECIFICITY: LATERAL EYE.
-I- PTM: SOME OR ALL OF THE CARBOXYL-TERMINAL SER OR TH
BE PHOSPHORYLATED (BY SIMILARITY).
-I- MISCELLANEOUS: THIS OPSIN HAS AN ABSORPTION MAXIMUM
-I- SIMILARITY: BELONGS TO FAMILY 1 OF G-PROTEIN COUPLE
-- SIMILARITY: BELONGS TO FAMILY 1 OF G-PROTEIN COUPLE
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 01-JUN-1994 (Rel. 2

No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
